Provide the most suitable information and communications-related products and services tailored to the stage and needs of the company since starting business.

Our own sales structure, CRM.

Web marketing × Sales rep × CLT (Customer Loyalty Team)

"GLOBA Busines	More vision, More success.		
GLOBAL WIFI NINJAWIFI WIFILDAND Q-Ca			
Less Expensive Fixed-rate	Maximum cost benefits -89.9% From JPY300/day Japanese cellphone companies' fixed-rate discount comparison		
Areas	Available in over 200 countries and regions worldwide, leading the industry in the number	GSMA	
Comfortable	High-speed communications in partnership with telecom carriers around the world	Associate Member	
Safe / Secure	Secure; 47 support bases available 24 hours a day, 365 days a year, around the world	Join from Sep. 2019. One of the world's largest mobile telecom business	
Counter	Number of airport counter is the industry's largest class	associations that links more than 750 mobile telecom carriers and 400	
Corporate Sales	Uptake ability of corporate needs	related industrial operators worldwide.	
Customers	Number of users is the largest in the industry		

Comparison of Overseas Internet Connection Means ①

"Global WiFi" "NINJA WiFi" are competitive in safety, security, comfortability, and price.

Users are unwilling to share their own data traffic with others, but they are less reluctant to share a rented Wi-Fi router with others (They tend to share it with two or three people in case of independent travel).

Means	Price	Area	Speed	Management	Security
GLOBAL WiFi .	\bigcirc	\bigcirc	\bigcirc	\bigcirc	\bigcirc
NINJA WIFI Powered by GLOBAL WIFI	Partnering with overseas high quality ISP - to offer the fastest connection speed in the area, reasonable price, security and usability.				
Roaming (Telecom carriers' fixed-rate)	×	\bigtriangleup	\bigtriangleup	\bigcirc	\bigcirc
	There are problems with price and quality. (It costs from about JPY980 to JPY2,980/day, and it may cost more expensive.)				
Prepaid SIM (Purchased overseas)	\bigtriangleup	\bigtriangleup	\bigcirc	×	\bigcirc
	Need knowledge to manage. (Local purchase, issues with data capacity, and periodical charge is required, etc.)				
Free Wi-Fi Spot		×	\bigtriangleup	\bigcirc	×
(Hotel, Café, etc.)	Problem with coverage (with limited communication area), speed (depending on the user's communication environment and traffic conditions), and security.				

Comparison of Overseas Internet Connection Means ②

Wi-Fi router rental	Com- parison	Roaming (Telecom carriers' fixed-rate)	Free Wi-Fi Spot / Hotel Wi-Fi
JPY 300-2,170 /day * Round-the-world plan JPY2,980/day Apply for rental on the website.	Fee	JPY980-2,980/day Need to check in advance the contract details, compatible models, and settings, etc. according to the plan. * Depending on your mobile carrier	Free Wi-Fi spot Free Accommodation fee (Hotel Wi-Fi included) or JPY500-3,000 Hotel Wi-Fi +accommodation fee
Fixed fee and stable speed Full security and compensation You can use it comfortably thanks to the fixed fee. Choose the communication capacity according to your situation.	Advan- tage	Easy to connect * Tethering is also available.	Easy to use Area is limited, but it is provided free of charge in many places, and it is easy to connect.
More luggage Need to carry a Wi-Fi router in addition to your smartphone.	Dis- advan- tage	Expensive Fee is more expensive than those for Wi-Fi rental. If the setting is wrong for data roaming, the fee can be more expensive.	Be careful about unauthorized access It is easy to use, but it has some risks of virus infection and personal information being stolen by unauthorized access.
If you connect the Internet at a stable speed without worrying about additional charges (You can use it with several people at a lower fee by splitting the bill) Available anywhere. No worry about busy access and difficulty to connect.	Reco- mmend	If you want to connect the internet easily with your own device	Communication area is limited, but you want to save money. It is for users who only need to connect the overseas Internet in a limited amount of time.

Items	Summary	
Sales	Overseas Regular rental : Rental fee per day × number of days used Average: JPY1,000/day, Average number of days used: 7 days Options available such as insurance, mobile battery, etc. GLOBAL WiFi for Biz : Monthly basic charge (JPY2,167) + data communication fee (plan) × number of days used Use service in Japan (Domestic option for teleworking) Domestic (in Japan) Rental fee per month (available for rental from 1 day) Average: Approx. JPY5,000/month, Average days used: 1.5 months (45 days)	
Cost of sales	Data communication (telecom carriers in the world) Terminal price (mobile Wi-Fi routers) Recorded as rental asset (recorded by depreciation over 2 years) Outsourcing (commission paid to sales agents), etc.	
SG&A expenses	Personnel, advertising, shipping delivery, business consignment, credit card payment, etc. Operation and rent of shipping centers, airport counters, customer centers, etc. Other SG&A expenses, etc.	

- Maximize Convenience and Cost Efficiency -

A Wi-Fi router with next-generation communication technology that manages SIM on the cloud.

No need to insert/change SIM physically.

Communication lines of the world are available with only one device.

The device settings can be adjusted remotely in the case of communication failure.

The plan (data capacity) can be changed during the rental term.

Make the most of the characteristics of the CLOUD Wi-Fi router.

Convert the Cloud Wi-Fi router used for overseas communication service to the domestic Wi-Fi router. Since a physical SIM card is not inserted in the router, it can be assigned to other routers depending on the communication status.

* It can be operated even in the case that the number of rentals is more than the number of SIMs (efficient operation of communication costs).

Expand Service Areas for Unlimited Plan - Competitive Advantage When Recovering Travel -

Recently we tend to consume large amounts of data communication capacity, such as diversified smartphone apps, transmission and reception of large-volume images and videos, and SNS posting.

Popular to share with multiple people such as friends and family members, and to use multiple devices (smartphones, tablets, laptops, etc.) for business.

Expand the service areas and plans, responding to requests for the plan that can be used without worrying about data capacity and long-term use (extended overseas business trip period due to COVID-19). Increase choice ratio of unlimited plan \Rightarrow Improve ARPU.

Airport Counter and Smart Pickup

Receive and return at domestic 17 airports, 34 counters, 36 Smart Pickup units, and return BOX. Installed automatic pick-up lockers at 11 airports.

The service level is optimized according to customer.

Eliminate waiting time for customers who do not need explanation such as repeaters (Utilize Smart Pickups). Airport staffs respond to customers who need explanation (Utilize airport counters).

Smart Strategy

Evolve to more convenient, comfortable, relieved counters that meet each customer's needs, responding to the increase in the number of rental (delivery) and optional services (compensation service, accessory etc.), for Japanese traveling overseas and foreign visitors to Japan.

Online Order System just before Departure (Smart Strategy × CLOUD WiFi × Database)

Acquire departing passengers on the day. \Rightarrow Increase number of users.

* Respond to WEB application in front of the airport counter instantly in collaboration with the database.

Expand Tabi-naka services (including options), responding to customer requests.

Support safe, secure, and comfortable travel.

Use existing customer base and provide useful information/services to solve problems during overseas travel.

Pick up at Convenience Store - Gaining Competitive Advantage When Travel Recovers -

Based on your convenience, another option is added: you can pick-up a Wi-Fi router at Seven-Eleven throughout Japan (excluding Okinawa) near your workplace or home.

Provide an option to avoid crowded places such as airport counters.

You can pick it up even at midnight if the store is open.

At Seven-Eleven near you

You can pick it up at Seven-Eleven near you.

You can pick it up even at midnight if the store is open.

You don't need to wait at the airport counter.

20

Expand Unmanned Stores - Gaining Competitive Advantage When Travel Recovers -

Increase unmanned stores with vending machines.

Where are they set up? (As of end of Jun. 2021) At Kita-kyushu airport, Miyako Shimojishima Airport * Plan to add more in the future.

What type of machines are set up? Smart Pickup + Return BOX (Available for pick-up and return)

Features

Non-face-to-face receipt without waiting at the airport counter even during busy seasons (for repeaters who do not need explanation, and effective against COVID-19).

Available 24 hours a day including early in the morning and late at night, when there are needs, but it is difficult to secure personnel.

Also set up vending machines for pre-paid SIM for domestic use mainly for foreign travelers visiting Japan and those who are temporarily back to Japan. Possible to add touch points in a small space and at low cost (convenience improved and profits increased).
