

(FY2022) Financial Summary Video

"GLOBAL WiFi" business steadily recovering due to rapid easing or elimination of entry restrictions in various countries

Vision Inc. Kenichi Sano President, Founder & CEO

For FY2022 ending December 31, 2022, the company reported sales of 25,487 million yen, gross profit of 12,330 million yen, operating profit of 2,414 million yen, ordinary income of 2,422 million yen, and profit attributable to owners of the parent of 1,548 million yen.

Factors contributing to the increase in operating profit include the Global WiFi business performing well because of the steady recovery of outbound (travelers from Japan to overseas) usage due to rapid easing or elimination of global entry restrictions.

Information and Communication Services business increased due to strengthened sales of merchandising products (mobile communication devices, office automation equipment, etc.) The space management business (rental service for meeting rooms and telework spaces) increased due to the acquisition of Adval Corp. President Sano will give further details.
